

Homebuddy Regression Test Suite
Application: <https://hb-test.stage.sirenltd.dev/>

MODULE 1: Landing Page & Zip Code Validation

Covers all behavior on the home page before the wizard opens, including zip code input validation and submission.

ID	Title	Severity	Type
TC-1	Verify that valid zip codes other than 10001 return valid results	Critical	Functional
TC-2	Verify that an empty zip code field prevents form submission	High	Negative
TC-3	Verify that a zip code with fewer than 5 digits is rejected	High	Boundary
TC-4	Verify that alphabetical or special character input is rejected in the zip code field	High	Negative
TC-5	Verify that a 6-digit numeric input is rejected in the zip code field	Medium	Boundary

MODULE 2: Wizard Navigation & UI Behavior

Covers how users move through the wizard, including entry, exit, back navigation, progress tracking, and general UI interaction.

ID	Title	Severity	Type
TC-1	Verify that the browser back button is functional during the multi-step wizard	Medium	Functional
TC-2	Verify that the X (exit) button inside the wizard closes the wizard and returns the user to the home page	High	Functional
TC-3	Verify that 'Next' cant be clicked without selecting any tile on the first wizard step	Medium	Functional
TC-4	Verify that the wizard progress bar or step indicator advances correctly with each step	Low	Functional
TC-5	Verify that the page is fully functional and all links are valid when accessed on a mobile	Medium	Cross-browser/Compatibility

MODULE 3:Wizard Step-by-Step Flow Validation

Covers each individual step inside the multi-step wizard in sequence, verifying correct loading, valid input acceptance, and proper advancement to the next step. These are positive path tests ensuring the happy flow works end to end.

ID	Title	Severity	Type
TC-1	Verify that Step 1 loads correctly 'Which elements of the kitchen would you like to update?' displays all tiles after entering zip code 10001	Critical	Functional
TC-2	Verify that Step 2 loads correctly 'What would you like to do with your kitchen cabinets?' appears after selecting Kitchen cabinets on Step 1. Verify that Step 2 displays the correct options 'Replace all or most cabinets', 'Repair/replace a few cabinets', 'Not sure'	Critical	Functional
TC-3	Verify that Step 3 loads correctly 'What type of property is this?' appears after completing Step 2. Verify that Step 3 displays all expected property type options Single family home, Multi-family home, Townhouse, Condo/apartment, and any others present	Critical	Functional
TC-4	Verify that Step 4 loads correctly 'Is it a mobile, modular or manufactured home?' appears after completing Step 3. Verify that Step 4 displays exactly two options 'Yes' and 'No' and that clicking 'No' advances to Step 5 without triggering the warning.	Critical	Functional
TC-5	Verify that Step 5 loads correctly 'Are you the homeowner or authorized to make property changes?' appears after completing Step 4. Verify that Step 5 displays the correct options and that selecting 'Yes' advances to Step 6	Critical	Functional
TC-6	Verify that Step 6 loads correctly 'What is the approximate size of your kitchen in square feet?' appears after completing Step 5. Verify that Step 6 accepts a valid numeric input and the 'Next' button becomes active.	Critical	Functional

TC-7	Verify that Step 7 loads correctly 'Do you know what your approximate budget is?' appears after completing Step 6. Verify that Step 7 displays all four expected budget range options 'Up to \$5K', '\$5K to \$10K', '\$10K to \$30K', 'More than \$30K'. Verify that each individual budget range option on Step 7 can be selected and visually indicates selection	Critical	Functional
TC-8	Verify that Step 8 loads correctly 'Who should I prepare this estimate for?' appears after completing Step 7. Verify that Step 8 displays both a 'Full name' input field and an 'Email address' input field. Verify that entering a valid full name (10 characters) and valid email on Step 8 allows the wizard to advance.	Critical	Functional
TC-9	Verify that Step 9 loads correctly 'What is your phone number?' appears after completing Step 8. Verify that entering a valid phone number on Step 9 and clicking 'Submit my request' opens the phone confirmation screen	Critical	Functional
TC-10	Verify that the phone confirmation screen displays a 'Phone number is correct' option and that clicking it advances to the final Thank You page.	Critical	Functional
TC-11	Verify that the Thank You page loads correctly after confirming the phone number and displays all expected content sections	High	Functional

MODULE 4: Static Page Content & Links

Covers all static content on the landing page outside the wizard, including the reviews section, footer links, images, and legal pages.

ID	Title	Severity	Type
TC-1	Verify that review links in 'What	Low	Functional

	People Are Saying' section redirect to valid pages		
TC-2	Verify that the 'Terms Of Use' link redirects to the Terms Of Use page and "Privacy Police" to the Privacy Policy page	Medium	Functional
TC-3	Verify that the static images on the page are visible	Medium	Functional
TC-4	Verify that the scrolling behavior of the picture gallery works as expected	Medium	Functional
TC-5	Verify that all the available zip code entry fields behave with the same logic	High	Functional
